

The Gigland Plan | The Ultimate "Pop Band" Creation

Hello Fellow Music Maker,

I am creating a "New Kind" of Modern Pop/Alternative Rock Band. There is nothing like it on the Music Scene.

It will be built around Great Songs and a Deeper Musical Prowess than Normally found in Pop Bands.

The Main Elements of this Super Band will be - Powerful Musicianship and Masterful Vocals missing in current Acts. I am seeking *Collaborators and Partners at all Professional Levels* in this Enterprise.

When Finished this is what this Project will look like...

- The "Ultimate Pop/Alternative/Rock Band". A Musical Caliber to match most "Player Bands". (eg. Dave Mathews Band, the Police, Steely Dan, Pink Floyd, Journey, Queen)
- Strong Live Performances featuring Rich Vocals and Musical Prowess.
- Over 500 Unpublished Songs to Choose From. (Mine) 500 more from various other songwriters.
- "Say Something" Songs with lyrical clarity, depth and strong themes. Better Songs make for better gigs & videos.
- Cutting Edge Recording Techniques - starting with a mix of Loops, Electronic and live drums.
- Videos with Viral Possibilities stamped all over them. (eg. Jonas Brothers, Sledgehammer, etc...)
- Our Secret Weapon will be Our Cover Song Arrangements to supplement our Originals.

Why Me to Head this Project?

I have been working as a professional musician and entertainer for 30 some years in some of the most challenging live band situations in the country, from Los Angeles Show Bands (The Zippers, Stinger) and Studio bands (Sound City, Seinfeld Pit band) to Las Vegas Shows (Heroes of Rock-n-Roll / Country Tonight) to Broadway Shows ("HAIR"- European tour) to Disneyworld, Orlando. (Currently - I play both Paul McCartney and John Lennon of the Beatles)

I have been a part of some very powerful live presentations and band situations. These acts have a common thread - they all require a *higher level of talent and teamwork* to come off properly. I spent 15 years (Over 8000 performances) working hotels, lounges, casinos and showrooms in order to focus on writing and recording the 500 Song Catalog. This catalog is the crux of the plan as it is the Substance that glues all the other parts together.

As far as videos, I won the TOWER Records Music Video Award (National) for a video I shot in my living room. I've been shooting and editing videos for these songs for 2 decades now and have dozens of ideas for the shooting of the new ones.

Along with my Original catalog, I have honed my arranging abilities on the revamping of hundreds of cover songs in the process. I was even informally commissioned by Muzak Corporation to create a channel called the "Cover Kings" for that purpose. I went on to create The "Ultimate Show Band" - RetroSpect with over 100 revamped Covers for our Shows.

As far as a vocalist and schooled musician, I began my formal training in Berklee College of Music in Boston as a Vocal/Performance Major and have been drawing on that knowledge all my life.

I have a Vision and Strategy for this Project that is unmatched by *Anything* in Pop Music today. For More Information

Non-Fiction

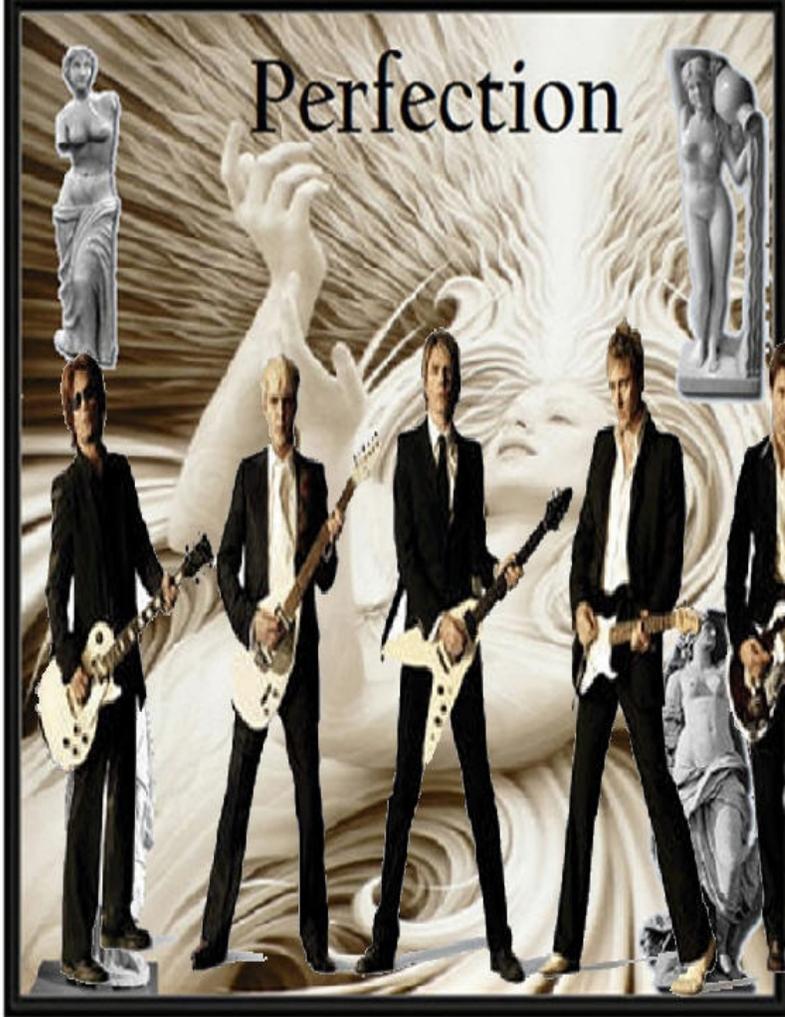

Real life will hit you harder than a bullet,
And you can't prepare or read ahead.
There's a hired assassin out on every corner,
As I go where - angels fear to tread.

My courage is high as I walk into what
Looks like a scene from "Casablanca".
Two drinks later I've become the Lone Ranger,
Ready to meet my Helen or Delilah..

This Non-Fiction has a strange style.
This Non-Fiction doesn't read well.
It needs some fiction or it won't sell,

It won't sell...
It won't sell...

Perfection

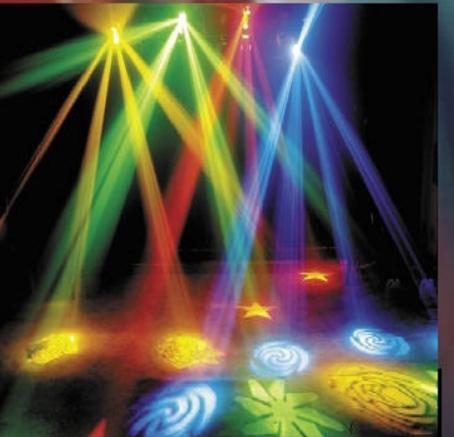

I dream about - Perfection.
Pygmalion - Perfection.
A sanitized - Perfection.
An idealized - Perfection.

But I never get - Perfection...
No I haven't met -
Perfection.

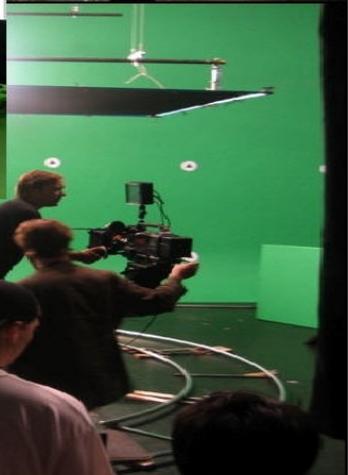

Oh, Oh, Oh, will I ever reach you?
I do so...really want to reach you...
Why,... do I never reach you?

There in the distance...Perfection
Over the rainbow...Perfection
Behold the man...Perfection
Michelangelan ...Perfection
